92

H₂O₂ CARPET STAIN & SPOT REMOVER (Ready To Use)

- Removes the toughest of spots and odors, such as:
 - coffee and tea
 - pet stains and urine
 - wine
 - grass
 - fruit juices
 - soft drinks
 - blood
 - etc.

- For oil and grease spots, use ES 88.

DIRECTIONS:

- 1) Always test for color fastness in a hidden/inconspicuous area prior to the treatment of the stain.
- 2) Remove all loose solid soils from the area to be cleaned by brushing/scraping/vacuuming. If it is a liquid stain, blot off the excess with a **white** cotton cloth or wet vac/extract.
- 3) Spray ES 92 generously (allow the carpet to get moist) about 12 inches from the stained area. Do not rub/scrub/blot the area.
- 4) For deep pile carpets, work ES 92 into the pile lightly with a clean rag or brush.
- 5) Let sit for 5 to 10 minutes.
- 6) Using a dull, blunt tool (tablespoon, spatula, etc.) work the stain from the outside towards the middle.
- 7) Blot the area with a clean, **white** cotton cloth. Do not scrub.
- 8) Rinse the area with clean water and blot up using a clean **white** cotton cloth or wet vac/extractor (works best).
- 9) Re-apply ES 92 lightly and walk away. If possible, keep foot traffic off the stain until dry.
- 10) After a few days, check the stain. Re-treatment may be necessary in cases of severe staining.

SHELF LIFE:

Nine to twelve months from production date without a significant reduction in efficacy. Closing the sprayer when not in use will prolong shelf life.

SIZES:

946 ml (1.0 U.S. quart)

PACKAGING

Wherever possible, bottles and pails made from recycled plastic (10 - 25%). Can be recycled where facilities exist. Boxes made from recycled cardboard (94 - 100%).

BIODEGRADABILITY

(Decomposition of organic substances into carbon dioxide, water and other harmless substances.) Rapid biodegradation reduces impact on the environment and food chain. All organic cleaning ingredients in these formulas are readily biodegradable per OECD Test 301D.

HEALTH & SAFETY

No ingredient found on major regulatory lists. Non-flammable and non-corrosive at use dilution.

NATURAL RENEWABLE RESOURCES

Wherever possible, we use only naturally-based, renewable ingredients, such as grains, corn oil, palm kernel oil, coconut oil, sugar cane juice & glucose.

TOXICITY

Acute Oral/Dermal Product considered essentially non-toxic according to WHMIS regulations.

AQUATIC TOXICITY

Product exceeds recognized acute toxicity standards for fish, invertebrate and algae at use dilution.

SEAL OF APPROVAL

Carpet & Rug Institute
