**Formulated with Staying Power for Fewer Sink Turns**

**Balanced Formula is Easy on Hands**

# 5

## SUPERCONCENTRATED FOOD PROCESS DISH DETERGENT LONG LASTING FOAM

### Professional Recommendations

- Manual dish detergent only. Do not use in closed or automatic systems - foaming will occur
- **DO NOT** mix with any other cleaners

### Specifications

Appearance	Viscous, yellow liquid
Odor	Lemon
Density (lbs/gal)(±0.1 @20°C)	.8.62
pH (Conc.)(±0.5 @20°C)	.8.0
BRIX activity,% (±0.5 @20°C)	.25.4
Viscosity (Brookfield SSA @20°C,cps)	.600
Rinsability	Excellent
USDA rating	.A-1
Stability (40°-120°F)	.Stable
Freeze/thaw stability	.OK 3 cycles, with thaw/agitation
Shelf life (Closed containers, 40°-120°F)	.1 year minimum

### Equipment List

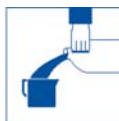

- ✓ Clean wiper
- ✓ Scouring pad
- ✓ Pot brush

Available in sizes:  
1 and 55 gallon containers.

Read all directions and cautions prior to beginning work.

For best results, use **Food Process Dish Detergent** with warm water. Pour this product into sink, and then fill at full force to generate billowy suds.

For most dishware and glassware, dilute 85:1 (1 1/2 oz. per gallon). For pots and pans, dilute 64:1 (2 oz. per gallon).

Place tableware into warm solution; allow to work, then clean using pot brush, clean wiper or scouring pad.

Rinse thoroughly with clear water, and rack to dry.
